

Report Title

I. Introduction

- A. Background and Motivation of the Study
- B. Research Objectives and Goals
- C. Overview of the Paper Structure

II. Literature Review

- A. Relevant Concepts and Definitions
- B. Summary and Analysis of Previous Studies
- C. Identification of Knowledge Gaps and Current Research Status

III. Research Methodology

- A. Research Design and Data Collection Methods
- B. Data Analysis Techniques and Tools
- C. Research Variables and Hypotheses

IV. Research Findings

- A. Descriptive Statistics and Data Analysis Results
- B. Model Development and Validation
 - SVR, Decision Trees, Random Forests, Neural Networks
- C. Interpretation and Discussion of Results
 - Comparison between different models.

V. Conclusion and Recommendations

- A. Summary of Findings
- B. Significance and Limitations of the Conclusions
 - The goal of this research is to solve real-world problems through data analysis and model construction.
- C. Suggestions for Future Research Directions

VI. References

VII. Appendices
